REMARKS

By this amendment, the claims have been modified to recite a shaped body having a lower end with an aperture configured for coupling to a neck of a spray bottle, and an upper lip located directly above the aperture for hanging a spray bottle coupled thereto. This allows the spray bottle to hang directly below the upper lip, a feature not shown or suggested by the cited prior art. Applicant has also endeavored to refrain from positively reciting the spray bottle itself. Questions regarding this application may be directed to the undersigned attorney at the telephone/facsimile numbers provided.

Respectfully submitted,

By: 

John G. Posa
